**IT PROGRAMMER ANALYST, LEAD
(SKILLED SERVICE)
SALARY RANGE: \$46,563 - \$74,725**

**STATE OF MARYLAND
DEPARTMENT OF BUSINESS AND ECONOMIC DEVELOPMENT
DIVISION OF ADMINISTRATION AND TECHNOLOGY**

The Maryland Department of Business and Economic Development is seeking qualified applicants for the position of IT Programmer Analyst, Lead. This position is responsible for performing complex and sensitive assignments related to the initiation and execution of major IT projects/applications and administering the departmental Content Management System (CMS), Microsoft Office SharePoint Server (MOSS). Activities include the alignment of projects with strategic departmental direction, State e-government initiatives, IT project fiscal planning and fiscal reporting, IT project start-up and support, and the establishment and implementation of IT industry standards for the management and execution of projects. The position will assign, review, and approve the work and training of lower level programmer/analysts. Incumbent will ensure that IT projects adhere to the full software development life cycle including design and requirements phase, programming, testing, installation, implementation and documentation of computer applications in addition to the development and maintenance of Web (Internet and Intranet) sites. The successful candidate will be responsible for advanced level of work designing, developing, testing, implementing, documenting, maintaining, and providing support for software applications, information systems, Web applications, databases, and programs using third-generation and other generally accepted computer programming languages and development tools.

Candidates must possess strong written, interpersonal, oral communications and Website development and logic skills. It is essential that candidates be capable of adapting to change and learning new technologies quickly, with a minimum amount of formal training. Candidates must have development experience with HTML/CSS/XML/XSL/ASP.NET/C# and be a highly motivated self-starter who has served as a project leader on large, complex SharePoint 2007/2010 applications. The ability to handle multiple, concurrent and high priority tasks and hands on experience with the following are essential:

- SharePoint 2007/2010 administration/applications, and Microsoft application development.
- ASP.NET framework experience preferably using the c# language.
- SharePoint Portal Server, Windows SharePoint Services implementation and deployment, including the creation of custom Web parts, and script languages (JavaScript/Ajax)
- development experience with HTML, XML, XSL, and CSS

Experience with JAVA, Apache Tomcat, Web Trends, Adobe Creative Suite CS 5 is preferred.

Candidates must possess a Bachelor's degree from an accredited college or university in Information Technology, Computer Science, Management Information Systems, or other information technology related field to include coursework in systems analysis and applications programming using third generation or other generally accepted computer programming languages; two years of experience designing, developing, testing, implementing and maintaining applications systems and programs using the software development life cycle. An equivalent combination of education and experience may be accepted.

To apply, submit a resume to: **DBED Office of Human Resources**
ATTN: IT Programmer Analyst, Lead
World Trade Center – 401 East Pratt Street – 10th Floor
Baltimore, Maryland 21202
No Later Than: **OPEN UNTIL FILLED**

Resumes may also be sent electronically to: ahalikias@choosemaryland.org.
